# WORKSHOP ON CLASSIFICATION SCHEME AND SUBJECT HEADINGS ON ISLAM

*Date*

10 August 2017 / 18 Dhu al-Qa'dah 1438H

*Venue*

Auditorium and Multipurpose Room,  
Library,  
International Islamic University Malaysia (IIUM)

*Organized by*

IIUM Library  
in conjunction with  
IIUM World Prosumer Convention 2017  
(IIUM WPC 2017)

## INTRODUCTION

The locally expanded Library of Congress Classification (LCC) sub-class BP can no longer accommodate the emerging new and sophisticated topics related to Islam. At the end of 2012, the IUM Library had devised captions (headings and sub-headings), and then later in 2015 constructed the class numbers and subject headings based on the structure and conventions of the universally accepted LC classification system. This was with the fervent hope that the IUM revised and modified subclass BP would be the best alternative to represent the Islamic classification of knowledge.

In conjunction with the IUM World Prosumer Convention 2017 (IUM WPC 2017), the Library is taking the opportunity to showcase the 'IUM Classification System on Islam' to the Muslim World. This workshop marked the Library's initial effort to share and promote an appropriate and suitable classification system on Islam.

## WORKSHOP OBJECTIVES

- To enhance the understanding among the Muslim World, the need and importance for a unique and authentic classification system on Islam.
- To introduce to owners of Islamic collection, an appropriate and suitable classification system on Islam.
- To give a preview of the modified and customized subclass BPA-BPZ based on the pilot run done at the IUM Library.
