AIMS & SCOPE OF IIUM ENGINEERING JOURNAL

The **IIUM Engineering Journal**, published biannually, is a carefully refereed international publication of International Islamic University Malaysia (IIUM). Contributions of high technical merit are to span the breadth of engineering disciplines; covering the main areas of engineering: Electrical and Computer Engineering; Mechanical and Manufacturing Engineering; Automation and Mechatronics Engineering; Material and Chemical Engineering; Environmental and Civil Engineering; Biotechnology and Bioengineering; Engineering Mathematics and Physics; and Computer Science and Information Technology. Contributions from other areas of Engineering and Applied Science are also welcomed. The IIUM Engineering Journal publishes contributions under *Regular papers, Invited review papers, Short communications, Technical notes, and Letters to the editor* (no page charge). Book reviews, reports of and/or call for papers of conferences, symposia and meetings, and advances in research equipment could also be published in IIUM Engineering Journal with minimum charges.

REFEREES' NETWORK

All papers submitted to IIUM Engineering Journal will be subjected to a rigorous reviewing process through a worldwide network of specialized and competent referees. Each accepted paper should have at least two positive referees' assessments.

SUBMISSION OF A MANUSCRIPT

An original and two copies of the original manuscript should be sent to:

Editor, IIUM-Engineering Journal, www.eng.iium.edu.my/ejournal, e-mail: akamin@iium.edu.my
Faculty of Engineering, International Islamic University Malaysia (IIUM), P.O. Box 10,50728,
Kuala Lumpur, Malaysia. Phone: (603) 6196 4482, Fax: (603) 6196 4853.
