## SHARI'AH COMPLIANT HEALTHCARE CENTRE

Ismail Jasmani, Mohd Izzat Amir Zakaria & Julaila Abdul Rahman  
Department of Applied Arts and Design, Kulliyah of Architecture and Environmental Design, IIUM

### ABSTRACT

Designing a building based on Shari'ah compliant practice is encouraged in Islamic Community. Hospitals are where people who get medicine or proper treatments sick. This institution or health care service where dealing with inpatient, outpatient and emergency cases. In Malaysia Department of Standard has been appointed Standard and Industrial Research Institute of Malaysia (SIRIM) as one body to develop, distribute, evaluate and certify standard in Malaysia. Under General Shari'ah based Quality Management System (MS 1900:2014). MS 1900:2014 documents are specifically provide general guideline to-

ward implementing a shari'ah management system. A Shari'ah compliant hospital is where the healthcare services rendered in the hospital are in accordance with the Islamic Teaching principle. The awareness for the need to practice Shari'ah Compliant in all aspect in Islam practices are importance now day, where the beauty of Islam way of life and everyone can practice without bias to one races and community in all aspect in way of life in the world.

## CONCLUSION

'Shari'ah' Compliant Hospital does not only cater for the physical treatments of the patient, but it also caters and provide for the religious and spiritual needs of a Muslim patient. Currently, the understanding and acceptance of spirituality and religiosity in public facility; hospital is still not acknowledge by Oriental culture as well as Western world. This research approaches on 'Shari'ah' Compliant is recommended to be a part of Medical Tourism Industry, targeting OIC members countries. In relation, it can be seen that Malaysia is one of the country that has a potential as one of the hub of hospital tourism industry in the near future.
